Carshalton Athletic Football Club & Carshalton High School for Girls sports plans

Cllr. Jill Whitehead, Chair of the Council's Environment & Neighbourhoods Committee, says: "Your ward councillors and three local resident representatives recently met the Carshalton Athletic Football Club Chairman (CAFC) and his team to discuss their plans for a new all-weather football pitch, to replace the current earth pitch. They intend to apply for substantial funds from the Football Association and submit a planning application to Sutton Council in the autumn, with building starting in summer 2014. They plan to replace current training activity in Wrythe Recreation Ground with activity on the all-weather pitch in the ground, thus reducing traffic and parking stress along Brookfield Avenue."

Cllr. Alan Salter adds: "In order to reduce other parking and traffic stress in the Colston Avenue area, the club plans to seek double yellow lines and road signage for its entrance in Colston Avenue, and also direct visitors to park in a largely unused alternative car park at the rear of the ground next to the Woodland Trust nature reserve, which can accommodate significant numbers of cars. We have asked the club to look at ways the new pitch (if it is agreed) could be shielded from residents in Mead Crescent to reduce noise and light problems e.g. by planting trees or erecting a noise barrier. CAFC is currently going door-to-door in local roads to seek local residents' views on their proposals, and will report back shortly on their consultation exercise."

Cllr. Hamish Pollock, Chair of the Council's Carshalton & Clockhouse Local Committee added: "We have also just been alerted to plans by Carshalton High School for Girls to build a new sports hall, on the adjacent site next to Carshalton Athletic Football Club. This could put extra parking pressure on residents in Brookfield Avenue, who have already commented to us about parental parking, and in other roads on the Poets Estate, as well as problems of lighting and noise currently referred to by local residents."

If you have any comments you wish to make on either of these planning applications, please contact your local councillors at the e-mail addresses opposite.
